

How to Set Up an Account for Dropbox

1. Go to <https://www.dropbox.com/>

2. Click download.

3. Click Run, then install.

4. Click “I do

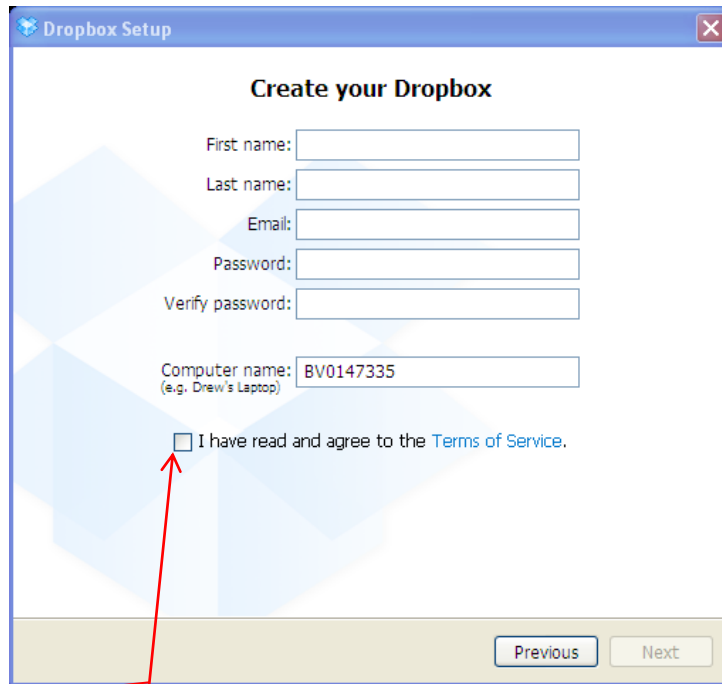

not have a Dropbox

account” and then fill

out the information required.

****NOTE**** Make sure to click

This box.

The image shows the 'Dropbox Setup' window with the title 'Create your Dropbox'. It contains several input fields: 'First name:', 'Last name:', 'Email:', 'Password:', 'Verify password:', and 'Computer name: BV0147335 (e.g. Drew's Laptop)'. Below these fields is a checkbox labeled 'I have read and agree to the Terms of Service.' with a red arrow pointing to it. At the bottom right are 'Previous' and 'Next' buttons.

5. Select your amount of storage you want (Two gigabits is free).

6. Select typical user, unless you want otherwise.

7. Put Dropbox where you want on your computer, and you're **done**.
